

The Law Offices of Gerald F. Chefalo BUILT 2008

Attorney Gerald Chefalo wanted an inviting, modern office that would make his clients feel at ease and create a pleasant, efficient work atmosphere for him and his associates. This was achieved by incorporating warm dark woods for cabinetry and trim, subtle recessed lighting, and special features such as a three-piece, custom suspended ceiling and wet bar in the conference room as well as another wet bar in the waiting room. Neutral colors are used throughout the 2500-square-foot space, accented by eye-catching striped carpet and carpet tile.
